## Stem Flowers

Our stemmed flowers collection draws upon a regularly changing list of alpine, equatorial, temperate and tropical species that provide for seasonal refreshing of indoor and outdoor floral displays and landscaping.

All the flowers in this collection are botanically accurate and incredibly detailed - at arm's length, it is often impossible to decide which are living flowers and which are our artificial.

# Foliage

An extensive collection of foliage and leaf-sprays for creating artificial bushes, shrubs, trees, and undergrowth, featuring many of the world's favourite types.

Seasonal variations are provided for many species, allowing you to rotate between Spring, Summer and Autumnal presentations to retain authenticity and interest in your interior and exterior landscaping. Most products in this category are now available in FireSilx inherently fire retardant materials, and also available in UVsilx colourfast materials.

## Feature Trunk Bespoke Tree

Handmade, pre-potted and each tree completely unique. Our new and exciting range of bespoke trees are designed to be cost-effective and quickly manufactured by our skilled TreeBuilders.

We use real preserved trunks, giving each tree its own beautiful and natural look. The canopy is foliated with the same premium grade foliage that we use in our Arboretum range, ensuring a realistic appearance.

Contact us to find out more information on the trees and the lead time to expect.
